Sprint 7 Final Project Zomato Sales Analysis

By: Kenneth Weeks

March 14, 2025

Introduction

- ▶ The purpose of the project is to analyze the Sales of Zomato's Restaurants.
- ▶ The following questions will be answered during this presentation:
 - ▶ What are the main Key Performance Indicators (KPI's)?
 - ▶ What are the dynamics of sales and revenue overtime?
 - ▶ How did the distribution of sales change over a period of time?

Over-all Sales by Quarter

- From the 4th Quarter of 2017 to the 2nd Quarter of 2020 the sales for Zomato Restaurants decreased.
- 2018 1st Quarter had the highest sales during this period with \$115,950,460.
- 2020 2nd Quarter had the lowest sales during this period with \$63,264,897.

Key Performance Indicators (KPI's)

- ▶ Total Sales Amount - \$986,565,016
- ▶ Total Sales Quantity - 2,444,320
- ▶ Total Number of Customers - 77,929

Recommendations

Upselling and Cross-Selling - Train staff to suggest add-ons, appetizers, or larger portions when taking orders to increase average order amount.

Targeted Promotions - Run limited-time offers, happy hour specials, or discounts during slower periods to attract new customers.

Review/Rating Program - Reward customers who leave an online review with a discount code or coupon for next visit.

Conclusions

Revenue for the company is currently on a downward trend. The data shows the over-all sales, popular cuisines, and which customers are spending the most money at our restaurants.

The recommendations outlined in the previous slide could be a good starting point to reverse the downward trend of the companies' restaurants.
